

Candidate Profile Report

Candidate: Vishwajit Sen

Weighted Overall Fit Score: 91.78/100

Technical Expertise — 91.23/100

Technical Expertise — Strong background in AI, machine learning, data science, and statistical modeling.

HR Comments: Technical Expertise is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Coached multiple folks to successfully build their career in the data science and problem-solving using ML/DL algorithms."

Leadership — 91.49/100

Leadership — Proven ability to lead teams, mentor colleagues, and drive AI projects to success.

HR Comments: Leadership is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Coached multiple folks to successfully build their career in the data science and problem-solving using ML/DL algorithms."

Innovation — 93.21/100

Innovation — Creative thinker, able to design and build new AI products, solutions, and features.

HR Comments: Innovation is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Technical Excellence: Proficient in Python, R, SAS, SQL, cloud platforms (AWS, Azure), Big Data technologies, PySpark, deep learning frameworks (PyTorch, Dataiku, Transformers), Agentic AI, MLOps, data visualization tools (Power BI, Tableau), and advanced AI applications including Generative AI, LLMs, Retrieval-Augmented Generation (RAG), Computer vision problems like Image classification using Transfer Learning (VGG16, Resnet etc.)"

Problem Solving — 89.36/100

Problem Solving — Analytical and structured in approaching complex problems with data-driven methods.

HR Comments: Problem Solving is strong and consistently demonstrated across experiences.

Evidence: "■ Coached multiple folks to successfully build their career in the data science and problem-solving using ML/DL algorithms."

Communication — 90.05/100

Communication — Clear communicator of complex technical ideas to non-technical stakeholders.

HR Comments: Communication is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Instrumental in building relations with upper-level decision makers, seizing control of critical problem areas and delivering on client commitments."

Business Acumen — 91.46/100

Business Acumen — Understands business needs, product-market fit, and the value of AI for growth.

HR Comments: Business Acumen is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Equipped with a strong foundation in MLOps principles, tools, and cloud infrastructure to lead cross- functional AI/ML initiatives, streamline deployment processes, and drive enterprise-scale AI adoption."

Collaboration — 93.89/100

Collaboration — Works effectively with cross-functional teams, engineers, product managers, and executives.

HR Comments: Collaboration is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Worked closely with the business heads / stakeholders for the Digital/Innovation / Analytics COE team in understanding the business problems and building the end-to-end problem solutions."

Research Orientation — 91.75/100

Research Orientation — Keeps up with cutting-edge AI research and applies it in practical scenarios.

HR Comments: Research Orientation is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ ■ Successfully completed an end-to-end MLOps training program designed for real-world AI project deployment."

Execution & Delivery — 92.52/100

Execution & Delivery — Track record of delivering AI solutions on time, at scale, with measurable impact.

HR Comments: Execution & Delivery is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "■ Equipped with a strong foundation in MLOps principles, tools, and cloud infrastructure to lead cross- functional AI/ML initiatives, streamline deployment processes, and drive enterprise-scale AI adoption."

Strategic Vision — 93.44/100

Strategic Vision — Ability to envision the future of AI and data products, aligning with company strategy.

HR Comments: Strategic Vision is a standout strength for this candidate, suggesting a high level of mastery.

Evidence: "My passion lies in translating complex data into actionable insights that empower organizations to make informed decisions, foster innovation, and achieve sustainable growth."

Final HR Summary

This candidate demonstrates strong alignment to AI/Data Science leader expectations. Proceed to interview for a deeper technical and leadership assessment.
